5. Our experience suggests not to use any readymade M.C.Q. Books at **initial stage** before complete study; as those MCQs are designed on total syllabus of the subject; which leads to disorientation / confusion & ends in Superiority complex / inferiority complex. However such books are helpful for revision after completing the study.

7. On the other hand, We have sliced the syllabus so as to digest it with comfort & confidence.

Smita Choradiya : Jamnagar Passed Out : Original Pune

We know your excellent imagination power & aspiration for improvement.
 Definitely we benefited a lot from the course. Appropriate study orientation was the most useful thing. 'What is not to read' than 'what to read' was more helpful, which avoided unnecessary labor. Due to prior introduction with 'negative marking system' we were 'ready' to face the entrance pattern.

Ajit Kadam : Passed Out BHU. (Varanasi) : Original Pune

We are thankful for your valuable guidance.
 In the course, the study-enhancing atmosphere, healthy competition &
 increasing confidence have a special importance to achieve the success.

Parag Jahagirdar : Passed Out BHU. (Varanasi) : Original Jalgaon

Your course gave a new TURN to my LIFE. The study you made us to do, encouraged us to go deep in to 'Samhita'. Regular paper solving created confidence in mind.... all this turned into the successful selection here over.

Hrishikesh Ranganekar : Passed Out Kottakkal Kerala : Original Pune.

Your students in large number at various PG centers are the evidence of WORTH USEFULNESS of the course. Your efficiency & trend setting study system are beneficial to the ambitious students. You are working hard at intellectual level, which makes a great difference in student's LIFE.

Ajay Nawale : Passed Out Jaypur : Original Pune.

I reached here under your guidance. The course made a large difference in my case. I never imagined to get selected for PG as I was not in touch with Aayurveda, but your guidance made it TO HAPPEN.

Course navigated us towards a new & proper direction.

Anant Shekoker : Passed Out Jamnagar : Original Akola.

I am 100 times thankful to you, Sir. Credit of my success goes to you.
 You kept enlightened the flame of my confidence.

Why Mhetre's M.D.(Aayurveda) Entrance (PGA CET) Preparation Course?

This course is specially designed for The Ambitious Students

& As, you are aspiring for PG Entrance Exams,

'YOU ARE AMBITIOUS! Congratulations!!

For such entrance Exams, special study is required. In our BAMS career, We study in year wise & subject wise pattern, that too in mostly subjective style. Though MUHS Nashik has introduced MCQ, still those MCQs are again year-oriented / subject-oriented. But the MCQs asked at Entrance Exams, are spelled over 'Entire Aayurveda'; so the syllabus for entrance exams includes the fullest & widest spectrum of complete Aayurveda, right from 1st to last year. Therefore, it needs a special technique to study such a large syllabus for MCQs. Yes, there are so many 'readymade' Notes / MCQ Books available in market, & of course they are based on total syllabus of Aayurveda. But what is your study status? Are you sure to recall all minute details of subjects covered in 1st & 2nd years? & What more, is it easy to pinpoint even 3rd year issues, after a gap of one year during internship? That's why, before taking help of any Readymade book, it is better to assess our own status! It is not a difficult job to design 100s of MCQs, but to answer them; one needs 'first hand information' 'at tip of the tongue'! Such 'INSTANT' reflection requires a self-made, our very own DATABASE. To prepare such a DATA, is an expert-skill Task!! We distribute necessary printed material. However, 'Predigested Ready Food' hardly helps! On a single one line Datum, you can frame number of MCQs. We here at our course train you to stand firm on 'your own feet'; we scare to make you lame & blind by giving Ready Stuff. Still, We do provide necessary Printed Notes!

❖ We don't 'Carry' you, but We 'Navigate' you towards the Success.

In our 'WISE TOPS' method you gradually achieve the confidence to face, fight & conquer ANY MCQ. The 'WISE TOPS' is the system, which helps you to digest the whole syllabus comfortably. When you successfully, during the course, prepare yourself, then 'market ready books' may help you for net-practice. Moreover you are solving MCQs at every session during the course, so not only by quantity but you become familiar with almost all the probable styles varieties patterns of MCQ design. At entrance, most of MCQs are

Guggly, Yorker, Leg-spin, Bouncer or Good length spot!.....still you are enough expert to pull them to yield 'plus one mark' at any & every instance! You are keen & cautious to avoid 'negative marking', (if it happens to be introduced, in future.) Yes, we do cover necessary Modern part, too. We guarantee that the entire expected syllabus would be completed during the course. We keep no stone unturned. Not a single line is missed.

We train you to solve, not 'many' MCQs but 'ANY' MCQ !!!!
